Why the Church? - WC12

According to scripture, the Body of Christ is known on earth as the Universal Church. But the Universal Church finds its greatest expression and impact through the local church. God raises up local churches with corporate assignments to reach the lost and to make disciples of all nations, and scripture tells us He places us in the local church as He sees fit. Christians are to discover the local church to which they are called, and when they do, they are to take their place and give their supply to see God's corporate assignments fulfilled. It is within the setting of the local church that Christians grow spiritually as they feed on God's Word together and learn to work together in love for a cause bigger than themselves. In this class, students will gain a deeper understanding and appreciation of the vital role of the local church and its importance to God's plan on earth and the life of every Christian.
